1 RFC2911: Internet Printing Protocol/1.1: Model and Semantics

R. Herriot, R. deBry, S. Isaacson, P. Powell

September 2000 rfc, RFC Editor

Additional Information: full citation

This document is one of a set of documents, which together describe all aspects of a new Internet Printing Protocol (IPP). IPP is an application level protocol that can be used for distributed printing using Internet tools and technologies. This document describes a simplified model consisting of abstract objects, their attributes, and their operations that is independent of encoding and transport. The model consists of a Printer and a Job object. A Job optionally supports mu ...

2 RFC2566: Internet Printing Protocol/1.0: Model and Semantics

R. deBry, T. Hastings, R. Herriot, S. Isaacson, P. Powell

April 1999 rfc, RFC Editor

Additional Information: full citation

This document is one of a set of documents, which together describe all aspects of a new Internet Printing Protocol (IPP). IPP is an application level protocol that can be used for distributed printing using Internet tools and technologies. This document describes a simplified model consisting of abstract objects, their attributes, and their operations that is independent of encoding and transport. The model consists of a Printer and a Job object. A Job optionally supports mu ...

3 Illustrative risks to the public in the use of computer systems and related technology

Peter G. Neumann

January 1996 **ACM SIGSOFT Software Engineering Notes**, Volume 21 Issue 1

Full text available: pdf(2.54 MB) Additional Information: full citation

4 Is it live or is it Memorex?

Tory Sawyer, Randy Anderson, Gary McCuaig

September 1986 **Proceedings of the 14th annual ACM SIGUCCS conference on User services: setting the direction**

Full text available: pdf(2.60 MB) Additional Information: full citation, index terms
